“I was amazed! Sounds I hadn’t heard in years came back to me!”
— Don W., Sherman, TX

How can a hearing aid that costs only $199 be every bit as good as one that sells for $2,400 or more?

The answer: Although tremendous strides have been made in Advanced Hearing Aid Technology, those cost reductions have not been passed on to you. Until now...

MDHearingAid® uses the same kind of Advanced Hearing Aid Technology incorporated into hearing aids that cost thousands more at a small fraction of the price.

Over 350,000 satisfied MDHearingAid customers agree: High-quality, FDA-registered hearing aids don’t have to cost a fortune. The fact is, you don’t need to spend thousands for a hearing aid. MDHearingAid is a medical-grade hearing aid offering sophistication and high performance, and works right out of the box with no time-consuming “adjustment” appointments. You can contact a licensed hearing specialist conveniently online or by phone — even after your purchase at no cost. No other company provides such extensive support. Now that you know...why pay more?

Can a Hearing Aid Delay or Prevent Alzheimer’s and Dementia?

A study by the National Institute on Aging suggests older individuals with hearing loss are significantly more likely to develop Alzheimer’s and dementia over time than those who retain their hearing. They suggest that an intervention — such as a hearing aid — could delay or prevent this by improving hearing!

The F-35 Lightning II: Joint Strike Fighter

Aircraft carrier-based fighter evolution culminates in the F-35C, which has never been available at sea. The F-35C long-range strike fighter is built explicitly for carrier operations, making it the Navy’s future first-day-of-the-war strike fighter.

The Washington Navy Yard

The Washington Navy Yard is the oldest shore establishment of the U.S. Navy. It sits along the Anacostia River in southeast Washington, DC, about four and a half miles east of the Pentagon and two miles east-southeast of the U.S. Capitol.
D-Day

I have a friend who is Army and I am Navy, so you can see where many of our conversations often differ, but all in fun—particularly during football season. One time we were talking about D-Day when he asked, “How many Navy guys had boots on the ground at Normandy?” To avoid any more discussion, I changed the subject because I was not sure how many sailors were at Normandy. I knew the U.S. Navy played a significant role in Operation Neptune, which supported Operation Overlord, which paved the way for the liberation of Europe. I am sure my friend was talking about the 1st Infantry that hit the beaches as well as the 101st and 82nd U.S. Airborne, who were dropped behind German lines to secure bridges on the right flank of the beaches.

General Dwight Eisenhower was appointed commander of Operation Overlord in January of 1944. In the months before D-Day, the Allies carried out a massive deception operation to make the Germans think the main invasion target was Pas-de-Calais rather than Normandy. Many tactics were used to carry out the deception, including fake equipment; a phantom army commanded by George Patton and supposedly based in England, across from Pas-de-Calais; double agents and fraudulent radio transmissions.

Bad weather caused a 24-hour delay so the assault began just after midnight on June 6, 1944. Eisenhower told the troops, “You are about to embark upon the Great Crusade, toward which we have striven these many months. The eyes of the world are upon you.”

By dawn on June 6, phase one had thousands of troops behind enemy lines. The second phase was the allied amphibious invasions that began at 6:30 a.m. The invasion fleet was made of eight different navies, with 6,939 vessels: 1,213 warships, 4,126 landing ships and landing craft and 736 ancillary craft and 864 merchant vessels.

The Allies overcame light opposition at beaches code-named Gold, Juno and Sword, as did the Americans at Utah Beach. The U.S. forces faced heavy resistance at Omaha Beach with more than 2,000 casualties. By the end of the first day, none of the assault forces had secured their first-day objectives. Allied casualties on June 6 have been estimated at more than 10,000 killed, wounded and missing in action: 6,603 Americans, 2,700 British and 946 Canadians. By June 11, the beaches were fully secured with more than 326,000 troops, 50,000 vehicles and 100,000 tons of equipment at Normandy.

Back to my friend’s question, there were 195,700 naval personnel involved in D-Day. The Royal Navy provided 112,824 sailors. The Merchant Navy supplied 25,000 men. There were 52,889 American sailors along with another 4,998 sailors from other allied countries.

The D-Day invasion turned the tide against the Nazis and in my opinion was the beginning to the end of the war.
We’ve all had nights when we just can’t lie down in bed and sleep, whether it’s from heartburn, cardiac problems, hip or back aches – it could be a variety of reasons. Those are the nights we’d give anything for a comfortable chair to sleep in, one that reclines to exactly the right degree, raises feet and legs to precisely the desired level, supports the head and shoulders properly, operates easily even in the dead of night, and sends a hopeful sleeper right off to dreamland.

Our Perfect Sleep Chair® is just the chair to do it all. It’s a chair, true – the finest of lift chairs – but this chair is so much more! It’s designed to provide total comfort and relaxation not found in other chairs. It can’t be beat for comfortable, long-term sitting, TV viewing, relaxed reclining and – yes! – peaceful sleep. Our chair’s recline technology allows you to pause the chair in an infinite number of positions, including the lay flat position and the zero gravity position where your body experiences a minimum of internal and external stresses. You’ll love the other benefits, too: It helps with correct spinal alignment, promotes back pressure relief, and encourages better posture to prevent back and muscle pain.

And there’s more! The overstuffed, oversized biscuit style back and unique seat design will cradle you in comfort. Generously filled, wide armrests provide enhanced arm support when sitting or reclining. The high and low heat settings along with the multiple massage settings, can provide a soothing relaxation you might get at a spa – just imagine getting all that in a lift chair! It even has a battery backup in case of a power outage. Shipping charge includes white glove delivery. Professionals will deliver the chair to the exact spot in your home where you want it, unpack it, inspect it, test it, position it, and even carry the packaging away! You get your choice of bonded stain and water repellent leather or plush microfiber in a variety of colors to fit any decor. Call now!

The Perfect Sleep Chair®

Memphis Convention: Home of Barbecue, Music and More!

This year, the FRA will host their Annual National Convention in Memphis, Tennessee, from September 22 to September 29. I hope you will join your Shipmates at the Crowne Plaza Memphis East located at 2625 Thousand Oaks Blvd., just 8 miles from the Memphis International Airport. Come explore one of the South’s most famous cities.

Memphis is on the Mississippi River located in the southwest of the state. It is probably most famous for its influence on music such as blues, soul and rock n’ roll. Some notable musicians who got a foothold in Memphis are Elvis Presley, B.B. King and Johnny Cash. They all recorded popular albums at the legendary Sun Studio. Other music landmarks include the Rock n’ Soul Museum and the Blues Hall. Everyone has their favorite attraction, but in Memphis the most notable would be Elvis Presley’s Graceland mansion, which was established as a museum in 1982 and sits upon nearly 14 acres that is currently owned by his daughter, Lisa Marie.

The city of Memphis is a vibrant city, full of culture and full of spirit. It has an incredible mixture of small city charm and big city activities. This is what helps make it such an amazing destination to visit. So, if you are visiting for the first time, there is always something new to do. Here are just a few suggestions to point you in the right direction for the best experiences.

**Best Place for the Blues.** Memphis is the home of the blues; beloved for bringing the world people like W.C. Handy, B.B. King and Big Walter Horton. People from across the country make the pilgrimage to hear today’s best blues musicians and sit around the historic stages where the legends got their start.

**Best Barbecue.** With more than 100 barbecue joints serving up the world’s best dry rub ribs, it is almost impossible to pick the best barbecue in Memphis. Everyone wants to know where they should go to get the best. In fact, the best Memphis BBQ list is one of the most sought-after guides online. If you want fine dining, then try Corky’s. It is considered to be a favorite for tourists.

**Best Things to Do.** Memphis has many sites that are historic and of national importance that everyone should see, including the National Civil Rights Museum at the Lorraine Motel, Elvis’ home Graceland, Sun Studios, Stax Museum of American Soul, Beale Street, the Memphis Zoo, the Grizzlies, the Peabody Hotel, The Pyramid and Mud Island. More can be found online at www.memphistravel.com.

**Best Outdoor Activities.** To truly appreciate all that Memphis has to offer, you need to get outside and experience the splendor of the South. Try walking; the city is very much a walkable city that has many outdoor experiences. The downtown Memphis Commission Sidewalk Stories offers a series of more than 50 bronze plaques laid in the concrete downtown to tell the city’s colorful history.

**Down By the River.** At Mud Island River Park, located at 125 N. Front St., you can get an understanding of the Mississippi River’s role and influence over Memphis. You should not miss the free Mud Island Riverwalk experience. The Riverwalk spans five city blocks and is marked with bridges and historic markers to give visitors a perspective on the Mississippi and its people. The riverwalk is open 10 a.m.-5 p.m. Tuesday through Sunday, April through October.

**Memphis Stands for Music.** If you like music, you will love Memphis. Muddy Waters, Johnny Cash, Aretha Franklin, Jerry Lee Lewis and Elvis Presley all made their way through Memphis on their way to super stardom. Take a walk down Beale Street and visit the many pubs and clubs scattered throughout the area.

This city has so many places to go and things to experience. Treat yourself to a small setting with a “KING” size menu of fun.

Offer valid for up to 30 days or while supplies last. Coin dates our choice.
Change Name to Sea Services Association

Mark Anderson’s letter about attracting younger members is quite correct. Any organization must constantly attract new blood or it will not survive. However, achieving that goal is very difficult, and may even be impossible. Today’s old and young have almost nothing in common. We don’t even speak the same language, but today’s young people seem to be well educated in technology and celebrities. Like it or not, there’s a huge divide.

FRA is a bland title with little appeal. It began as an organization for career USN people but is no longer that. My suggestion for increasing membership is to change the name to Sea Services Association and open membership to anybody with an interest in the sea services; Navy, Marine Corps, Coast Guard, Merchant Marine and Sea Scouts. We could also include Naval ROTC, Merchant Marine Academy and other maritime schools, etc., and shift emphasis from veteran’s advocacy to sea history and education. We’re overloaded with veteran’s organizations.

BT Davenport, USN (Ret.)

January FRAtoday

I received my monthly magazine yesterday and read it through and through that very night. Three great articles: Service Dogs, USS MIDWAY and the Shipmate Joe Prusacik profile. The three articles were right on target and I am hoping you publish more of the same. I enjoy human interest articles with lots of pictures.

Angelo Coppola, USN (Ret.) former CPO then LCDR

Armed Guard

I enjoyed the Armed Guard article in the April issue of FRAtoday. When I was in the first grade in September of 1942, my father, Lieutenant Junior Grade Wendell Chesser was just entering active duty. After training, he was assigned as gunnery officer on a merchant ship in New York. During his first Atlantic crossing in 1942, his forty-two-ship convoy suffered thirteen losses.

According to my father, most of the losses were to ships that straggled because of propulsion casualties. The escort ships could not leave the convoy to guard stragglers, making them vulnerable to U-boats. On one occasion, my father’s ship straggled, but they were able to make repairs and rejoin the convoy. It was a frightening time for the crew.

Later during the war, the Navy developed the escort carrier (CVE) whose aircraft cover greatly reduced merchant ship losses. My father made several more trips, which thanks to the CVE’s, suffered much fewer losses.

In 1944, my father transferred to the Armed Guard Training Base in Little Creek, Virginia and became a gunnery instructor. Later, he transferred to Pearl Harbor to join other ship pilots—my father had a Master’s License for inland waters, Baltimore to Cape Henry. He and the other pilots were preparing for the planned invasion of Japan when the Japanese surrendered.

He made it to Japan after the surrender and pilot American ships in Otaru on the northern Japanese island of Hokkaido. He returned home in 1945 in time for Christmas. He was active in the Naval Reserve and retired at the rank of Commander in 1968.

P.J. Chesser, HMC(SS), USN, (Ret.)
Cumberland County, Tennessee

Distinguished Graduate Chambers

The USS Midway Museum article in the January issue included a recounting of the MIDWAY’s participation in the rescue of Vietnamese families in April 1975 during the evacuation of Saigon. The skipper of MIDWAY was my Naval Academy Class of 1952 classmate, Larry Chambers. When the Bird Dog pilot mentioned in the article asked for permission to land on MIDWAY, Captain Chambers made the courageous decision to emergency clear the flight deck and ordered all hands to push the “helos” that cluttered the deck overboard, a decision that could have caused him to be court-martialed.

Chambers was the second African-American to graduate from the Naval Academy, the first to command a carrier and the first to attain flag rank, retiring in the rank of rear admiral. In recognition of his achievements, he was named a Distinguished Graduate of the Naval Academy in 2017.

James A. Sagerholm, VADM, USN (Ret.) Branch 24

Amethyst looks refreshingly vibrant in shades of lilac & lavender for a price that will take your breath away... Free!*
NDAA Action Will Start to Heat Up

As FRAtoday goes to press, the annual National Defense Authorization Act (NDAA) bills in each chamber of Congress are about to go through the legislative process. They will eventually be merged into one bill and approved by the House and Senate, and then sent to the president to be signed into law or vetoed. This is supposed to occur before the start of the new fiscal year (FY2020) Oct. 1, 2019. The process was slowed due to the administration’s late submission of a FY2020 proposed budget. The FRA Legislative Team is closely monitoring this process to try to stop any provisions that negatively impact FRA members and their families. Members are urged to subscribe to and read NewsBytes, the weekly legislative newsletter and review issues on the FRA Action Center located on the FRA website.

DOJ Decision on AOBWN Case Delayed 30 Days

The Supreme Court of the United States issued a 30-day extension to Department of Justice (DOJ) officials who are contemplating an appeal of a lower court ruling (Procopio v Wilkie). In January, the U.S. Court of Appeals for the Federal Circuit in Washington DC, in a 9-2 decision extended presumptive VA disability benefits to the so-called Blue Water Navy veterans who served off the coast of Vietnam and who were exposed to toxic chemical defoliants during the Vietnam conflict.

Mr. Procopio is a Blue Water Navy Veteran who never stepped foot on land in Vietnam but was exposed to Agent Orange during his military service off the coast of the Republic of Vietnam. Due to this exposure, he developed medical conditions consistent with other veterans who had served on land, and were exposed to Agent Orange. He argued that he should be entitled to a presumptive category and thereby eligible for disability benefits. The FRA is listed as a “Friend of the Court” by the petitioner and Blue Water Navy Veteran, Mr. Procopio.

Some court observers were surprised by the DOJ request since earlier, VA Secretary Robert Wilkie had recommended that DOJ not appeal the decision. In keeping with Wilkie’s recommendation, the Board of Veterans’ Appeals removed a stay that prevented any decisions on Blue Water Navy appeals, a hold that had been in place since October. Many details remain undetermined, including the precise definition of Vietnam’s nautical boundaries and the diseases that will be considered connected to herbicide exposure. The VA has indicated that a decision regarding the addition of bladder cancer, hypertension and other ailments would come in June, 2019.
Sen. Tammy Baldwin (Wis.) and John Cornyn (Texas) have introduced the Honoring American Veterans in Extreme Need (HAVEN-S.679) bill to shield veterans’ disability benefits from debt collectors when a veteran declares bankruptcy. Under current law, when a disabled veteran declares bankruptcy, debt collectors can seize their disability benefits because they are considered disposable income. Yet social security benefits are exempt from being included as disposable income. Disability benefits in any form are not taxable and therefore should not be considered disposable income. The legislative sponsors noted that it is unfair that veterans may be forced to give up their disability benefits when declaring bankruptcy, while the general population receiving similar benefits from social security is not.

Sen. Baldwin believes this bill will help veterans with mental health issues by easing their financial burdens. Members are encouraged to weigh in on this issue by contacting their senators through the FRA Action Center online at: www.fra.org/fra/Web/Content/VotervoiceFullInfo.aspx.

Sens. Kirsten Gillibrand (N.Y.), and Steve Daines (Mont.) have introduced the Blue Water Navy Vietnam Veterans Act (S.1195). The bill would clarify that service members who served off the coast of the Republic of Vietnam during the Vietnam conflict have a presumption for filing disability claims with the Department of Veterans Affairs (VA) for ailments associated with exposure to the Agent Orange herbicide. The bill would also extend the presumption of herbicide exposure to veterans who served on or near the Korean DMZ between Sept. 1, 1967 and Aug. 31, 1971. The legislation would provide health care, vocational training, rehabilitation and monetary allowance to a child who was born with spina bifida, if at least one of the child’s parents served in Thailand between Jan. 9, 1962 and May 7, 1975. The VA would also have to determine that at least one of the parents had been exposed to an herbicide agent during that period.

Earlier, the chairman of the House Veterans’ Affairs Committee, Rep. Mark Takano (Calif.) introduced the Blue Water Navy Vietnam Veterans Act (H.R.299), which is similar to the Senate bill. Last year’s House bill had 335 co-sponsors and passed the House (382-0), only to stall in the Senate Veterans’ Affairs committee and be tabled at the end of the session.

The FRA believes Congress should recognize these veterans who were exposed to Agent Orange herbicide and authorize presumptive status for VA disability claims associated with this exposure. Members are urged to use the FRA Action Center to contact their legislators to ask them to support these bills.

Sen. Jon Tester (Mont.) and Jerry Moran (Kan.) have introduced the Commander John Scott Hannon Veterans Mental Health Care Improvement Act (S.785), which will try to expand veterans’ access to high-quality mental health care and help reduce the rate of veteran suicide. Currently, on average, 20 veterans commit suicide each day. The legislation would:

- Increase the VA’s mental health staff to serve more veterans.
- Improve access to mental health care for veterans who live in rural areas.
- Strengthen support and assistance for transitioning service members.
- Study and expand innovative and alternative treatment options.
- Hold the VA accountable for its mental health care and suicide prevention efforts.

Members are urged to use the FRA Action Center to ask their senators to support this legislation.
HVAC Chairman Concerned that VA’s IT Could Disrupt Healthcare for Some Veterans

House Veterans’ Affairs Committee Chairman Mark Takano (Calif.) issued the following statement regarding the serious concerns raised about the Department of Veterans Affairs Information Technology solutions:

“The recent U.S. Digital Service (USDS) report on implementation of technology systems to support the Community Care components of the MISSION Act is incredibly alarming. By suggesting that VA’s planned IT solutions are inadequate, and that VA has not given itself enough time to develop a workable system, this report raises real concerns that implementation may be delayed and could even disrupt healthcare for 75,000 veterans every day.

“USDS raises credible concerns that Community Care should have a veteran-centric approach, but despite these critiques, VA appears to be ignoring the problem or at least is unwilling to revisit its approach. Nowhere is this clearer than VA’s intention to formally request a funding transfer to implement the very IT solutions USDS raises concerns about.

“VA’s history of failed IT systems shows that it cannot move forward with this IT implementation without addressing these root problems. The Committee will hold a hearing to demand answers from VA about the status of system development and will scrutinize the funding transfer request in light of these troubling findings.”

The FRA believes congressional oversight of the ongoing implementation of the VA technology upgrades is vital to ensuring improvements to the system. The FRA wants to ensure adequate funding for Department of Defense and VA health care resource sharing to deliver seamless, cost-effective, quality services to personnel wounded in combat and other veterans and their families.

The FRA NBOD Visits Pentagon

Due to a scheduling conflict, the National Board of Directors’ (NBOD) April meeting occurred during a week that Congress was in recess. In lieu of visiting Capitol Hill, the NBOD, along with the President and Vice President of the FRA Auxiliary visited the Pentagon. The board met with several Pentagon officials including OPNAV Command Master Chief Richard James, who was representing Master Chief Petty Officer of the Navy Russell Smith. He was out of town at the time.

NBOD members expressed alarm about off-base privatized housing conditions. These conditions include faulty wiring, exposed plumbing, poor water quality, vermin infestations, mold and lead contamination, raw sewage and other toxic exposures. The conditions have had negative health impacts for all residents, many of whom are young children. Shipmates are concerned that active duty members are not getting adequate financial education pertaining to investment options under the new Blended Retirement System (BRS). The FRA wants to ensure the Defense Department implements a high-quality education program that assists members under the new retirement system in developing prudent investment strategies. Military spouses should be included as fully as possible in the BRS education program.

The tour also included a visit to the National 9/11 Pentagon Memorial to honor victims of the attack on Sept. 11, 2001.

FRA Recognizes Outstanding USN & USCG Performers

The FRA continued its long-standing tradition of recognizing superior performance, by honoring Sea Service personnel who are standouts in their respective fields.

FRA’s National President Robert Washington, National Executive Director Tom Snee and members of the FRA headquarters staff participated in several events honoring the Navy's 2018 Reservists of the Year (ROYs), including a special ceremony at the U.S. Navy Memorial, an FRA hosted luncheon on Capitol Hill, and a tour of the Capitol Building. NP Washington addressed the awardees during the Recognition Ceremony, thanking their spouses and the reserve sailor finalists for their hard work and sacrifices.

The winner of the Reserve Sailor of the Year Program was, PSC-Select Angelitta E. Baggo. The other finalists were:

- PS1 (AW) Mary A. Dube.
- EM1 (SW) Christopher T. Harris.
- MA1 Justing C. Monson.
- HM1 Reginald B. Oden.

NP Washington presented each finalist with an FRA coin and two-year FRA Membership. The association has been a supporter of this recognition program since its inception and is proud to continue the tradition of acknowledging excellence.

In a separate event, the FRA recognized individual excellence by honoring the Coast Guard’s 2018 Enlisted Persons of the Year (EPOY). During a ceremony at USCG Headquarters in Washington, DC, FRA’s Robert Washington recognized Active Duty EPOY BM3 Jacob R. Blass of USCG Station Port Canaveral, Fla., and Reserve Component EPOY BM1 Michael A. Gould of USCG Port Security Unit 311, San Pedro, Calif. Both honorees received FRA Challenge coins, two-year membership and a certificate.
When you fall, can you get help?

Medical Guardian gets you help when you need it!

Get the #1 RATED MEDICAL ALERT SYSTEM today.

Hello, this is Medical Guardian. How can I help you?

Protection at Home AND On-the-Go. Empowering our customers to live a life without limits.

Medical Guardian is the perfect solution for older adults with an active lifestyle, for people who have trouble walking or for anyone living alone.

- FREE Base Station
- FREE Emergency Help Buttons
- FREE Charging Cradle

ONE PUSH OF THE BUTTON GETS YOU HELP

- Instant connection to specially trained emergency operators.
- Call for any emergency – Falls, Fire, Police, Ambulance
- Works in your home, while running errands and while traveling
- Always-on 24/7 service

“We would highly recommend them as the best company in the industry for a medical alert system.”

Budget Bill Stalls on House Floor

The FRA is thankful that the administration’s proposed budget provides $750 billion for Defense spending ($34 billion more than the current budget). Thanks also go to the House Budget Committee for voting to lift sequestration spending caps for two years. The House bill (H.R.2021) would provide $733 billion for Defense spending in FY2020. Unfortunately, different factions in the House could not agree on spending limits and there were not enough votes to pass the measure. The bill was intended to be an opening proposition from House Democrats in budget talks with the White House and Republican-led Senate about spending levels. The inability of the House to pass a measure to lift sequestration spending caps could be a sign of gridlock in the legislative process. Without legislative changes, more sequestration cuts are scheduled for FY2020, which begins Oct. 1, 2019, potentially placing our national security at risk.

Budget cuts mandated by the Budget Control Act of 2011 (known as sequestration) pose a threat to national security and will substantially impact member pay and benefits. These automatic cuts require that 50 percent of the cuts come from the defense budget, even though defense spending makes up only 16 percent of the entire federal budget. The FRA believes the FY2020 defense budget should provide adequate funding for “benefits and bullets.” Members are urged to go to the FRA Action Center to weigh in on this issue.

New Navy CNO and Vice CNO Nominated

Chief of Naval Operations Admiral John Richardson is scheduled to step down from his position later this year. Admiral Bill Moran has been nominated by President Trump to become the 32nd Chief of Naval Operations and awaits confirmation by the Senate. Moran has been the Vice Chief of Naval Operations since May 2016. The CNO is the Navy’s top admiral and is a member of the Joint Chiefs of Staff. The CNO reports directly to the Secretary of the Navy.

Vice Admiral Robert Burke has been nominated to be promoted to a four-star admiral and assigned as the Vice Chief of Naval Operations. If confirmed by the Senate, Burke would take over the Navy’s number two job from Admiral Moran. Burke, a career submarine officer, is currently the Navy’s Deputy Chief of Naval Operations for manpower, personnel, training and education.

Marines Name Next SMMC

The nominee for commandant of the U.S. Marine Corps, David Berger, has announced that Sgt. Maj. Troy E. Black will serve as the next (19th) Sergeant Major of the Marine Corps (SMMC).

Black is now serving as the Sergeant Major of Manpower and Reserve Affairs. He will replace Sgt. Maj. Ronald L. Green at a ceremony this summer. Green served 35 years in the Marines including 4 years as SMMC.

Black, originally from Louisville, Kentucky, is 50 years old and has been the sergeant major of manpower and reserve affairs since 2017. He enlisted in the Marine Corps in 1988 and he was sent to infantry school at Camp Geiger, North Carolina to be trained as a machine gunner. He has deployed multiple times throughout his career, including in support of Operation Desert Storm/Desert Shield, Operation Iraqi Freedom and Operation Enduring Freedom.

His awards include the Legion of Merit with gold star, Bronze Star with Combat Distinguishing Device, Meritorious Service Medal with two gold stars, Navy and Marine Corps Achievement Medal with a gold star and a Combat Action Ribbon with two gold stars.

The rank of sergeant major of the Marine Corps was authorized in 1970. The SMMC is selected by the commandant of the Marine Corps and typically serves a four-year term, though the SMMC’s service is at the discretion of the commandant.
Capture the bold Navy® spirit with a new rugged and tough backpack in brown genuine leather. Introducing our exclusive “Navy® Leather Backpack” available only from The Bradford Exchange.

Carry Navy® Pride Everywhere You Go
Our leather backpacks are wonderfully comfortable for everyday use and rugged enough for longer adventures. Each features two exterior Velcro® pockets, an exterior slip pocket beneath the top flap, two interior slip pockets, and a secure padded laptop pocket. The left front pocket features embossed stars along with “U.S. NAVY®” and the year it was established, while the right displays the branch emblem or logo. The leather top flap features embossing and closes with a magnetic snap closure. The shoulder straps are adjustable and padded and a top handle has been added for your comfort and convenience. A reinforced bottom panel completes this practical backpack and makes it a truly worthy investment you’ll enjoy for years!

A Remarkable Value… Available for a Limited Time
This handsome leather backpack is a remarkable value at $179.95*, and you can pay for it in 4 easy installments of $44.99 each. To order yours, backed by our unconditional 90-day guarantee, send no money now, just mail in your Priority Reservation. This genuine leather bag is not available in stores, so don’t miss out… inspire Navy® pride wherever you go and reserve yours today!

PRIORITY RESERVATION
SEND NO MONEY NOW
9345 Milwaukee Avenue · Niles, IL 60714-1393

YES. Please reserve the “Navy® Leather Backpack” for me as described in this announcement. Please respond promptly.

Active Duty/Reserve Issues

**Senate Subcommittee Urges Coast Guard Pay During any Future Shutdown**
The Senate Commerce, Science, and Transportation Committee’s, Security Subcommittee held an oversight hearing on the proposed U.S. Coast Guard and Maritime FY2020 budget. Subcommittee Chairman Sen. Dan Sullivan (Alaska) and Subcommittee Ranking Member Sen. Edward Markey (Mass.) called for legislation mandating that during any future government shutdown, Coast Guard personnel would continue being paid. Sen. Roger Wicker (Miss.), chairman of the Senate Commerce, Science, and Transportation Committee who also serves on the subcommittee, pledged to work on passing legislation mandating that Coast Guardsmen be paid during a government shutdown, just like the other branches of the Uniform Services. Members are encouraged to use the Action Center to ask their legislators to support this legislation.

**Bill Empowers Employers to Hire Reserve Component Members**
Reps. Tim Ryan (Ohio) and Steven Palazzo (Miss.) have introduced the Reserve Component Employer Incentive, Compensation, and Relief Act (H. R.801). The bill would provide employers with a tax credit aimed to offset costs accrued and hardships undertaken when employees that are members of the Reserve Component (National Guard and Reserves) are activated for military duty. This legislation would incentivize employers to hire and retain these service members.

This bill recognizes that the Reserve Component has transitioned from a strategic reserve to an operational reserve; the National Guard and Reserves are fully integrated in ongoing national security missions around the globe. This transition has led to increased training requirements, which go beyond the statutorily required 39 days of annual training to requirements, totaling 80 or more days per year.

The FRA wants to ensure Congress adequately funds and supports Reserve Component requirements for an operational reserve. Members can weigh in on this legislation by going to the Action Center online and scrolling down to the appropriate bill.

**American Forces Travel Discounts**
Service members, veterans and their families can now receive a military discount if they book their travel through American Forces Travel. The Department of Defense teamed up with Priceline and created an online travel booking site exclusively for U.S. military members. American Forces Travel is a new Morale, Welfare and Recreation (MWR) program that came out of a joint service initiative for the five branches of service.

The following personnel can use the service:
- All current Active Duty military (Army, Marine Corps, Navy, Air Force, and Coast Guard);
- All members of the Reserve Components and National Guard;
- All retired military, including those in the Reserves and National Guard who are retirement eligible;
- Medal of Honor recipients and 100% disabled veterans;
- All Department of Defense civilians serving outside the United States, including appropriated funds (APF) employees and non-appropriated funds (NAF) employees;
- American Red Cross and United Service Organizations (USO) paid personnel currently serving outside the United States;
- All eligible family members who are officially sponsored (ID card holders) by patrons in the above categories.

American Forces Travel is a full-service company that offers hotel, flight, car rental and cruise deals. They also offer bundled or package deals.

For more information about the service, go to: www.americanforcestravel.com.

**Senate Calls for “Military Retiree Appreciation Day”**
The Senate has passed a resolution (S.Res.118), sponsored by Sen. Elizabeth Warren (Mass.), that designates April 18, 2019 as Military Retiree Appreciation Day. The bipartisan measure recognizes, “the importance of paying tribute to those individuals who have faithfully served and retired from the Armed Forces of the United States. On this day, people of the United States are encouraged to honor the past and continued service of military retirees in their local communities and the United States.”

**NEW Rechargeable Digital Hearing Aid Technology Only $229!**
(*Each when you buy a pair)

The new more powerful HearClear™ HCR3 rechargeable hearing aid combines advanced technology with a low price to provide you with outstanding value.

**5 Star Reviews! ★★★★★**

Outstanding Product! “This product is outstanding. Dad loves it, my mom loves it, and I am grateful! Don’t believe that you have to spend a lot of money to get a quality hearing aid”
- Gilmore B.

**HCR3 Features!**

- Digital sound processing chip provides **clear sound and makes speech easier to understand** with less feedback than old analog technology
- Don’t worry about replacing batteries! **Full Charge Gives 16 Hours of Use! (Charger Included)**
- Easy On / Off Button
- Automatic Noise Reduction and Feedback Cancellation
- **100% Money Back Guarantee**
- 4 Programs for different listening situations
- Helps most **moderate to significant hearing losses** (call us if you need more power)

**Simple. Affordable.**

**Rechargeable Digital Hearing Aid - For Only $229!**

The new HearClear™ HCR3 Rechargeable Digital Hearing Aids are now available to you for an unbelievably affordable price! The HCR3 is packed with the same key technologies that all high end digital hearing aids share while leaving out the extra bells and whistles that increase cost and require expensive adjustments. This helps you **hear better, while saving you a lot of money.**

Your new HearClear HCR3 hearing aids work at a fraction of the cost of name-brand hearing aids, and you won’t have to keep changing the batteries! You will love the discreet, comfortable, lightweight Open-fit design. The HCR3 is pre-programmed for most moderate to significant hearing losses, so you won’t need professional appointments to make costly adjustments. **It is shipped directly to you and will help you hear better right out of the box!**

You can spend thousands for an expensive hearing aid, or you can spend just $249 for a hearing aid that is great for most hearing losses **(only $229 each when you buy a pair – hear up to 3 times better than wearing just one).** We are so sure you will love your hearing aids that we offer a **100% Money Back Guarantee - Risk Free** if you are not satisfied for any reason.

**MONEY SAVING OFFER!**

Use Coupon Code: **FR96**

**Even Better In Pairs!**

Your brain is designed to use both ears working together. In fact, studies show that you may be able to **hear up to 3 times better** in noisy situations when using two hearing aids. Buy a pair for the best results and maximum savings!
F-35 Lightning II: Joint Strike Fighter

Two F-35C Lightning IIs, attached to the "Argonauts" of Strike Fighter Squadron (VFA-147), stationed at Naval Air Station Lemoore, fly in formation for a photo exercise. VFA-147 is the first U.S. Navy Operational F-35C squadron based out of NAS Lemoore. Photo by Chief Mass Communication Specialist Shannon E. Renfroe.
Lighthining II: Joint Strike Fighter

By W.D. Stevenson and Elise M. Howard

The F-35 Lightning II is the manufacturing line of single-seat, single-engine, all-weather, stealth, multirole fighters. The fifth-generation combat aircraft is designed to perform unparalleled ground-attack and air-superiority missions, and is the latest fighter plane to be added to the inventories of the U.S. Navy, Air Force, and Marine Corps. The U.S. plans to purchase nearly 2,700 F-35s for these three service branches over the next 18 years. With a projected service life up to 2070, F-35s are expected to constitute the majority of America’s crewed tactical airpower for decades to come.
A Decade of Development

The story of the F-35 begins in 1993, when the Defense Advanced Research Projects Agency launched the Common Affordable Lightweight Fighter project. The purpose was to develop a stealth-enabled design to replace all U.S. Marine Corps and Air Force lightweight fighter and attack aircraft, including the F-16 Fighting Falcon and the AV-8B Harrier II. In the same year, the Joint Advanced Strike Technology project was started to develop a common strike fighter to replace the Navy’s F/A-18 Hornet. In 1994, Congress ordered the two projects to be merged into the Joint Strike Fighter Program, which aimed to develop a single aircraft that could be used by all three service branches.

After lengthy development and concept demonstration phases, Lockheed Martin Corporation won the JSF program contract. Despite the original vision of creating a single interchangeable design, the differences in each branch’s operational needs proved to be too great, and three distinct versions of the aircraft were developed: the F-35A for the Air Force, the F-35B for the Marine Corps, and the F-35C for the Navy.

When the first F-35As were built in 2006, Lockheed announced that the model would be named the Lightning II, in homage to the U.S.’s Lockheed P-38 Lightning and the U.K.’s English Electric Lightning F.3. After years of rigorous flight and ground testing, initial deliveries of the F-35A, F-35B, and F-35C were made at last in 2011, 2012, and 2013, respectively.

Controversy on Capitol Hill

The F-35 has been criticized by many on and off Capitol Hill for its high cost and lengthy development and production time. The aircraft has been the subject of many dissatisfied presidential tweets, and in 2017, Bloomberg Businessweek characterized the Joint Strike Fighter program as “a two-decades-in-the-making, trillion-dollar mistake.”

One of the greatest critiques of the program has been its failure to create the promised single plane to serve multiple branches of the military. Through the extensive testing and development phases, changes to the designs of each F-35 variant have resulted in improved performance for each variant, but widening discrepancies between the aircraft’s designs. Bloomberg Businessweek noted that the three current versions of the F-35 share only 25 percent of their designs.

The lack of similarities between the F-35 designs means that the predicted economies of scale for producing thousands of identical planes have been limited, resulting in significant budget overruns for the Joint Strike Fighter program. Initially estimated to cost the DOD $50 million each, the F-35 price estimate was closer to $100 million per plane by 2010. Negotiations between the DOD and Lockheed Martin to reduce the cost of each aircraft have been ongoing, and a September 2018 joint press release cited the newly-lowered costs for 2019 deliveries to be $89.2 million per F-35A, $115.5 million per F-35B and $107.7 million per F-35C.

At the 2018 Senior Air Force Conference in Israel, Lockheed Martin Chairman, President and CEO Marillyn Hewson noted that “We continue to make progress on our
Some of the most widely collected and coveted coins in the world are those that honor the brave men and women of the United States Armed Forces. Whether Air Force, Army, Marines or Navy, these tokens of honor and appreciation make the perfect gift for veterans, keepsakes of personal pride and esteem, and a way to show respect for the men and women who willingly lay their lives on the line to protect our safety and freedoms at home and abroad.

Now you have the chance to join the long history of Armed Forces coin collectors with a brand-new 2019 U.S. Silver Dollar, specially colorized with a laser technique that allows the emblem of each U.S. Branch of Service to be applied directly over the Walking Liberty obverse of a genuine American Eagle Silver Dollar.

Official U.S. Military Branch of Service Seals

Each tribute coin features the official U.S. Military Branch of Service seal, and is a legal-tender U.S. Silver Dollar. To own one of these coins is to take part in a legacy that dates back to the first Silver Dollars struck by our Founding Fathers. It is their principles that continue to drive our nation, and our military, towards a brighter future.

One Troy Ounce of Pure American Silver

Every 2019 American Eagle Silver Dollar comes freshly struck by the U.S. Mint in one ounce of 99.9% pure American silver. They hold an official legal-tender value one U.S. dollar each, with their precious metal weight, purity and legal-tender status backed by a government guarantee. Thanks in part to this guarantee, the American Eagle Silver Dollar is considered by many to be the most widely purchased and collected silver bullion coin in the world.

Call the number below and use the special offer code to secure your Armed Forces Tribute Silver Dollar now. Buy all four and you’ll SAVE $10 and receive FREE Shipping!

goal to reduce the price of the F-35A to $80 million by the year 2020, which is comparable in price to a 4th-generation aircraft, but with all the attributes that the F-35 brings to the fight.”

Despite domestic complaints about the cost, the F-35 has not been short on interested international buyers. Several allies of the United States have placed orders for F-35 squadrons of their own, including the United Kingdom, Canada, Australia, Italy, Norway, the Netherlands, Denmark and Turkey, all of whom have contributed millions of dollars to the development of the aircraft. Israel was the first country outside the United States to acquire an operational squadron of its own export variant, the F-35I Adir.

Three Versions with Common Capability
Anyone who has seen the F-35 in action understands why the international interest in this plane remains strong. All three versions are supersonic, low-observable stealth fighters that utilize a single 40,000-lb. maximum propulsion engine that can achieve Mach 1.6, about 1,200 miles per hour. Each variant has unique capabilities tailored to the service branch it was designed for.

The F-35A is the only version equipped with an internal cannon and has conventional takeoff and landing abilities. It is designed for the U.S.’s and other nations’ air forces with access to traditional runways, and is scheduled to be the most common version of the F-35 produced.

The F-35B was designed for the U.S. Marine Corps and other forces operating in short-field bases near the front lines of combat. The F-35B can take off in a mere 300 feet, as well as hover and land vertically by utilizing an Integrated LiftFan Propulsion System. Lockheed Martin won an award in 2002 for this innovative system, which uses a fan behind the cockpit 50 inches in diameter to blast air toward the ground while the engine rotates 90 degrees to send its exhaust downward.

Designed for the U.S. Navy, the F-35C uses a carrier-based, catapult-assisted takeoff and an arrested recovery landing system. It is also equipped with larger wings and sturdier landing gear to handle carrier-based takeoffs and landings, and has the ability to fold its wings upward for compact deck storage. The F-35C also has the largest fuel capacity of the three versions, carrying nearly 20,000 pounds of internal fuel, which allows a carrier to stay safely out of reach while its fighters engage remote targets. The F-35C is the only stealth fighter plane to ever be produced for use on a carrier, and expands a carrier’s mission capabilities.

A Multirole Fighter
One of the benefits of creating a fighter with so many capabilities is that missions traditionally requiring multiple aircraft to serve in air-to-air, air-to-ground, electronic attack, intelligence and surveillance and reconnaissance roles can now be performed by a squadron of F-35s instead, making it a “multirole” fighter.

In intelligence, surveillance and reconnaissance roles, the F-35’s integrated airframe design, which contains all of the craft’s fuel and weaponry within the airframe, as well as the advanced materials used to construct it, make it virtually undetectable to radar. The F-35 is also equipped with advanced electronic warfare equipment that allows pilots to jam radars, disrupt attacks, and locate and track enemy forces. These systems allow pilots to reach well-defended targets inaccessible to older aircraft.

Additionally, the F-35’s avionics systems allow for
Have you ever said to yourself “I’d love to get a computer, if only I could figure out how to use it.” Well, you’re not alone. Computers were supposed to make our lives simpler, but they’ve gotten so complicated that they are not worth the trouble. With all of the “pointing and clicking” and “dragging and dropping” you’re lucky if you can figure out where you are. Plus, you are constantly worrying about viruses and freeze-ups. If this sounds familiar, we have great news for you. There is finally a computer that’s designed for simplicity and ease of use. It’s the WOW Computer, and it was designed with you in mind. This computer is easy-to-use, worry-free and literally puts the world at your fingertips. From the moment you open the box, you’ll realize how different the WOW Computer is. The components are all connected; all you do is plug it into an outlet and your high-speed Internet connection. Then you’ll see the screen – it’s now 22 inches. This is a completely new touch screen system, without the cluttered look of the normal computer screen. The “buttons” on the screen are easy to see and easy to understand. All you do is touch one of them, from the Web, Email, Calendar to Games– you name it… and a new screen opens up. It’s so easy to use you won’t have to ask your children or grandchildren for help. Until now, the very people who could benefit most from E-mail and the Internet are the ones that have had the hardest time accessing it. Now, thanks to the WOW Computer, countless older Americans are discovering the wonderful world of the Internet every day. Isn’t it time you took part? Call now, and you’ll find out why tens of thousands of satisfied seniors are now enjoying their WOW Computers, emailing their grandchildren, and experiencing everything the Internet has to offer. Call today!

Call now and find out how you can get the new WOW! Computer.

Mention promotional code 111571 for special introductory pricing.

1-888-689-4689
instantaneous information sharing with friendly aircraft, ground troops, nearby ships, and leadership personnel to coordinate military efforts. The F-35’s integrated system of sensors captures more data than any previous fighter aircraft and is coordinated by a core processor that can complete over 400 billion operations per second. The processor combines information from BAE Systems’ classified electronic warfare suite with real-time data from the eight-sensor Electro-Optical Targeting System to identify emissions from enemy radar and electronic warfare equipment. The system also uses this information to recommend targets for attack and determine which weapons would best eliminate the threat.

In more traditional air-to-ground and air-to-air combat roles, the F-35’s advanced electronic systems and stealth give it a distinct advantage over previous generations of aircraft. The Lightning II uses Northrop Grumman’s latest active electronically-scanned array radar, which is the largest antenna ever produced for an aircraft. Its solid-state technology, lack of moving parts, and “replaceable assemblies” design allow for longer-range targeting with low chances of being detected and tracked, as well as frequent hardware and software updates. The F-35 also employs air-to-air, radar-guided missiles and precision-guided ground munitions for precise striking. Defensively, the Lightning II’s electro-optical Distributed Aperture System tracks incoming threats, such as missiles and enemy aircraft. The system is able to track threats up to 800 miles away from all angles simultaneously, as well as calculate a missile’s launch point.

**The Helmet of the Future**

A major component of the Lightning II’s advantage over traditional fighter jets is its Helmet Mounted Display System, which gives pilots unprecedented access to surveillance information. The helmet tracks a pilot’s head and pupil movements, using real-time video from six cameras and a sensor system placed underneath the plane to give the pilot a 360 degree view of the world outside the cockpit. The result is that when a pilot looks down, she doesn’t see her feet — she sees the ground. A button on the control stick allows the pilot to toggle between a video feed, thermal imagery, or night vision, and over each type of imaging a pilot can choose which data to display, from mission information such as potential targets, anticipated flight path and distance to destination, to information traditionally provided by a windscreen display, such as airspeed, pitch and altitude.

The helmets have a kevlar and carbon fiber outer shell that fits over a laser-cut inner liner, which is custom-made for each pilot. To achieve a seamless display that remains functional during high-G maneuvers, pilots attend four hours of fittings over the course of two days. Engineers ensure that the helmet’s optical sensors align precisely with the pilot’s pupils, and that the helmet’s center of gravity sits directly above the pilot’s spine to avoid neck injury.

**Worth the Money?**

While the costs of the Lightning II are easy to calculate, the benefits of having the world’s most advanced warplane are difficult to quantify. In the absence of a clearly identified war, it can seem unreasonable to spend decades of development and billions of dollars on a new fighter jet, but many nations have learned that wars do not announce themselves 20 years in advance. The process for developing new technology is never fast, cheap, or easy, and the final product is rarely perfect. While some may always see the F-35 as a “trillion-dollar mistake,” for countless pilots it could be the difference between life and death.
Do you get discouraged when you hear your telephone ring? Do you avoid using your phone because hearing difficulties make it hard to understand the person on the other end of the line? For many Americans the telephone conversation – once an important part of everyday life – has become a thing of the past. Because they can’t understand what is said to them on the phone, they’re often cut off from friends, family, doctors and caregivers. Now, thanks to innovative technology there is finally a better way.

A simple idea... made possible with sophisticated technology. If you have trouble understanding a call, captioned telephone can change your life. During a phone call the words spoken to you appear on the phone’s screen – similar to closed captioning on TV. So when you make or receive a call, the words spoken to you are not only amplified by the phone, but scroll across the phone so you can listen while reading everything that’s said to you. Each call is routed through a call center, where computer technology – aided by a live representative – generates voice-to-text translations. The captioning is real-time, accurate and readable. Your conversation is private. Internet Protocol Captioned Telephone Service (IP CTS) is regulated and funded by the Federal Communications Commission (FCC) and is designed exclusively for individuals with hearing loss.

Finally... a phone you can use again. The Hamilton CapTel phone is also packed with features to help make phone calls easier. The keypad has large, easy to use buttons. You get adjustable volume amplification along with the ability to save captions for review later. It even has an answering machine that provides you with the captions of each message.

See for yourself with our exclusive home trial. Try a captioned telephone in your own home and if you are not completely amazed, simply return it within 60-days for a refund of the product purchase price. It even comes with a 5-year warranty.

Captioned Telephone

Less Pees, More Zzz’s...

One of the signs of an aging prostate is an increased need to urinate, often many times per day.

That’s where Prostate Complete can help. With just one pill per day, Prostate Complete helps support:

- Reduced Urinary Frequency
- Normal Prostate Function
- Better Quality Sleep

In short? More time catching Zzz’s, fewer urges to pee.

(Top) View of the central part of the Yard, looking south, circa the early 1990s. M Street SE, the Yard’s northern boundary, is in the foreground, with the Latrobe Gate on the lower right. At the foot of the Admiral Leutze Park parade ground, in the middle of the view, is the Building 57-44-108 and 67-46 complex, which houses most of the Naval History and Heritage Command. Building 70, which holds the Navy Museum, is the long building at the right. The small building to the left of Building 70 is Building 1, which also held Naval History and Heritage Command offices. The bow of the display ship USS BARRY (DD-933) is visible in the upper right. Photo by U.S. Naval History and Heritage Command.

(Right) A view looking north through the main entry gate and up 8th Street SE, circa 1900. Note the old cannons (circled) used for decorations. Photo by U.S. Naval History and Heritage Command.
The Washington Navy Yard

Ceremony, History and Operations in the Nation’s Birthplace

By Ann Norvell Gray

The Washington Navy Yard is the oldest shore establishment of the U.S. Navy. It sits along the Anacostia River in southeast Washington, D.C., about four and a half miles east of the Pentagon and two miles east-southeast of the U.S. Capitol. This power center of the burgeoning Navy was begun by George Washington, conceived as a shipbuilding center during John Adams’ presidency and carefully supervised by Thomas Jefferson, who harbored a fundamental distrust of unrestrained military power, and wanted this base near enough to lie under the watchful eye of a civilian government.1 Congress approved the presence and purposes of the Navy Yard because it supported the protection of commerce across the seas.

The Navy Yard’s elegant Greek Revival and Italianate street-side ceremonial entrance stands where Eighth Street Southeast dies into M Street Southeast. The gate was originally designed by Benjamin Latrobe, second

The gate was designed in the Greek Revival style by Benjamin Latrobe, with constructing beginning in 1805. In 1880, a Victorian three-story building was added on top and at each side of the original gate structure. This photograph was received by the Naval Photographic Center in January 1979. Official U.S. Navy Photograph.
The architect of the U.S. Capitol, for whom it is named. The Latrobe Gate’s status as one of the nation’s earliest examples of Greek Revival architecture has contributed to the yard’s designation as a National Historic Landmark, but it was a controversial aesthetic choice at the time. William Thornton, the U.S. Capitol’s first architect and a devotee of simpler classical and Georgian forms, hated it, and called it a “monument to bad taste and design.”

Under Latrobe’s guidance, the yard continued to expand, and added, among other things, a guardhouse, officers’ quarters, shops, and a foundry. During the War of 1812, President Madison’s preoccupation was with the Canadian border. But in August of 1814, the British advanced from the Chesapeake Bay toward the city’s woefully under defended Anacostia River shore, and Secretary of the Navy William Jones ordered the yard’s architect and commandant Thomas Tingey to set fire to the yard. The following day, the British entered the yard to torch the buildings that remained. Mercifully, the Library of the Navy had evacuated all of its books before the blaze began, and neither the Latrobe Gate nor the two historic residences known as Quarters A and Quarters B were burned.

Over the past two hundred years, the purposes and functions of the Navy Yard have expanded and changed as this sea service has enabled the nation to mature into the most sophisticated, formidable naval power in the world. Examples of this change include the Sail Loft, where sailmakers once stitched canvas shade coverings, and which now houses the headquarters of the U.S. Navy Band. Similarly Building 22, where wooden ships were built and armaments machined, is now the Town Center, which includes a food court, a commissary, a dry cleaner, a florist and offices.

The Navy Yard has served from its origins as a ceremonial point of entry to the nation’s capital and has berthed and maintained presidential yachts throughout the years. Air travel has made formal riverside arrivals rare, but such dignitaries as the Marquis de Lafayette, Charles Lindbergh, and the first Japanese ambassador to the United States were welcomed at the waterfront, and the Unknown Soldier from a WWI battlefield was received in a somber ceremony in 1921. And although the NCIS headquarters is now...
It’s not a Wheelchair...

It’s not a Power Chair...

It’s a Zinger Chair!

More and more Americans are reaching the age where mobility is an everyday concern. Whether from an injury or from the aches and pains that come from getting older—getting around isn’t as easy as it used to be. You may have tried a power chair or a scooter. The Zinger is NOT a power chair or a scooter! The Zinger is quick and nimble, yet it is not prone to tipping like many scooters. Best of all, it weighs only 47.2 pounds and folds and unfolds with ease. You can take it almost anywhere, providing you with independence and freedom.

Years of work by innovative engineers have resulted in a mobility device that’s truly unique. They created a battery that provides powerful energy at a fraction of the weight of most batteries. The Zinger features two steering levers, one on either side of the seat. The user pushes both levers down to go forward, pulls them both up to brake, and pushes one while pulling the other to turn to either side. This enables great mobility, the ability to turn on a dime and to pull right up to tables or desks. The controls are right on the steering lever so it’s simple to operate and its exclusive footrest swings out of the way when you stand up or sit down. With its rugged yet lightweight aluminum frame, the Zinger is sturdy and durable yet convenient and comfortable! What’s more, it easily folds up for storage in a car seat or trunk—you can even gate-check it at the airport like a stroller. Think about it, you can take your Zinger almost anywhere, so you don’t have to let mobility issues rule your life. It folds in seconds without tools and is safe and reliable. It holds up to 275 pounds, and it goes up to 6 mph and operates for up to 8 hours on a single charge.

Why spend another day letting mobility issues hamper your independence and quality of life?

Zinger Chair®
Call now and receive a utility basket absolutely FREE with your order.

Please mention code 111570 when ordering.

Introducing the future of personal transportation.

The Zinger folds to a mere 10 inches.

Just think of the places you can go: * Shopping * Air Travel * Bus Tours
* Restaurants—ride right up to the table! * Around town or just around your house

Zinger is not a wheelchair or medical device and is not covered by Medicare or Medicaid.

© 2019 firstSTREET for Boomers and Beyond, Inc.
in Quantico, Virginia, it was first located here, and the establishing shot for the television show “NCIS” is the front facade of its original spot.

The yard is now primarily a ceremonial and administrative center, home to the chief of naval operations and the Naval Sea Systems Command. But in its roles as the headquarters for the Naval History and Heritage Command and the site of the National Museum of the United States Navy, the Washington Navy Yard continues to draw visitors from all over the map.

The National Museum of the United States Navy
The museum is a long, narrow building in the center of the base. Its exposed, skylit metal ceiling and slender struts make one think of an enormous boathouse, while the alcoves housing individual exhibits present the stories, pictures and artifacts at a comfortable scale. As its name suggests, the long gallery is arranged chronologically, illustrating the complexity and richness of the Navy’s role in national progress and security as the United States grew from concept to maturity. The museum’s website introduces you to the experience of the place with a comprehensive series of virtual tours by subject, including “The Forgotten Wars of the Nineteenth Century,” “Navigation,” “Great White Fleet,” and “Undersea Exploration.”

There is so much to see along the gallery’s length, and so many surprising artifacts and unusual stories beyond what you might think of, that perhaps descriptions of just a few outstanding or unexpected things will serve to whet your appetite for your own exploration.

One of the museum’s most captivating aspects is its enormous collection of exquisite ship models. Even a person who doesn’t know a jib sheet from a bedsheet can be fascinated by the artistry and precision of these remarkable replicas, varying in length from a few feet to numerous yards. They range from tabletop models of elaborately rigged wooden sailing ships to a sizeable scale model of the Iowa-class battleship USS MISSOURI, on whose deck the Japanese surrender ceremony ended the Second World War. After the war, Gibbs and Cox, the engineering firm responsible for the MISSOURI’s design, dedicated 70,000 hours to the construction of this model, which the museum describes as “probably one of the finest examples of the ship model-maker’s art owned by the Navy.”

A huge cut section model of the USS CONSTITUTION, lovingly nicknamed “Old Ironsides,” showcases the details of frigate construction, and describes with text and engineering drawings the process of “careening,” by which big ships in need of cleaning or repair below the waterline while far from dry docks could be rolled partway over to provide access to a damaged hull.

There is an alcove dedicated to the story of Matthew
Leading Acid Reflux Pill Becomes an Anti-Aging Phenomenon

Clinical studies show breakthrough acid reflux treatment also helps maintain vital health and helps protect users from the serious conditions that accompany aging such as fatigue and poor cardiovascular health

by David Waxman
Seattle Washington:

A clinical study on a leading acid reflux pill shows that its key ingredient relieves digestive symptoms while suppressing the inflammation that contributes to premature aging in men and women.

And, if consumer sales are any indication of a product’s effectiveness, this ‘acid reflux pill turned anti-aging phenomenon’ is nothing short of a miracle.

Sold under the brand name AloeCure, it was already backed by clinical data documenting its ability to provide all day and night relief from heartburn, acid reflux, constipation, irritable bowel, gas, bloating, and more.

But soon doctors started reporting some incredible results...

“With AloeCure, my patients started reporting less joint pain, more energy, better sleep, stronger immune systems... even less stress and better skin, hair, and nails” explains Dr. Liza Leal; a leading integrative health specialist and company spokesperson.

AloeCure contains an active ingredient that helps improve digestion by acting as a natural acid-buffer that improves the pH balance of your stomach.

Scientists now believe that this acid imbalance contributes to painful inflammation throughout the rest of the body.

The daily allowance of AloeCure has shown to calm this inflammation which is why AloeCure is so effective.

Relieving other stressful symptoms related to GI health like pain, bloating, fatigue, cramping, constipation, diarrhea, heartburn, and nausea.

Now, backed with new clinical studies, AloeCure is being recommended by doctors everywhere to help improve digestion, calm painful inflammation, soothe joint pain, and even reduce the appearance of wrinkles – helping patients to look and feel decades younger.

**FIX YOUR GUT & FIGHT INFLAMMATION**

Since hitting the market, sales for AloeCure have taken off and there are some very good reasons why.

To start, the clinical studies have been impressive. Participants taking the active ingredient in AloeCure saw a stunning 100% improvement in digestive symptoms, which includes fast and lasting relief from reflux.

Users also experienced higher energy levels and endurance, relief from chronic discomfort and better sleep. Some even reported healthier looking skin, hair, and nails.

A healthy gut is the key to a reducing swelling and inflammation that can wreak havoc on the human body. Doctors say this is why AloeCure works on so many aspects of your health.

AloeCure’s active ingredient is made from the healing compound found in Aloe vera. It is both safe and healthy. There are also no known side effects.

Scientists believe that it helps improve digestive and immune health by acting as a natural acid-buffer that improves the pH balance of your stomach.

Research has shown that this acid imbalance contributes to painful inflammation throughout your entire body and is why AloeCure seems to be so effective.

**EXCITING RESULTS FROM PATIENTS**

To date over 5 million bottles of AloeCure have been sold, and the community seeking non-pharma therapy for their GI health continues to grow.

According to Dr. Leal, her patients are absolutely thrilled with their results and are often shocked by how fast it works.

“For the first time in years, they are free from concerns about their digestion and almost every other aspect of their health,” says Dr. Leal, “and I recommend it to everyone who wants to improve GI health without resorting to drugs, surgery, or OTC medications.”

“I was always in 'indigestion hell.' Doctors put me on all sorts of antacid remedies. Nothing worked. Dr. Leal recommended I try AloeCure. And something remarkable happened... Not only were all the issues I had with my stomach gone - completely gone – but I felt less joint pain and I was able to actually sleep through the night.”

With so much positive feedback, it’s easy to see why the community of believers is growing and sales for the new pill are soaring.

**THE SCIENCE BEHIND ALOECURE**

AloeCure is a pill that’s taken just once daily. The pill is small. Easy to swallow. There are no harmful side effects and it does not require a prescription.

The active ingredient is a rare Aloe Vera component known as acemannan.

Made from 100% organic Aloe Vera, AloeCure uses a proprietary process that results in the highest quality, most bio-available levels of acemannan known to exist. According to Dr. Leal and several of her colleagues, improving the pH balance of your stomach and restoring gut health is the key to revitalizing your entire body.

When your digestive system isn’t healthy, it causes unwanted stress on your immune system, which results in inflammation in the rest of the body.

The recommended daily allowance of acemannan in AloeCure has been proven to support digestive health, and calm painful inflammation without side effects or drugs.

This would explain why so many users are experiencing impressive results so quickly.

**REVIVALIZE YOUR ENTIRE BODY**

With daily use, AloeCure helps users look and feel decades younger and defend against some of the painful inflammation that accompanies aging and can make life hard.

By buffering stomach acid and restoring gut health, AloeCure calms painful inflammation and will help improve digestion... soothe aching joints... reduce the appearance of wrinkles and help restore hair and nails... manage cholesterol and oxidative stress... and improve sleep and brain function... without side effects or expense.

Readers can now reclaim their energy, vitality, and youth regardless of age or current level of health.

One AloeCure Capsule Daily

- Helps End Digestion Nightmares
- Helps Calm Painful Inflammation
- Soothes Stiff & Aching Joints
- Reduces appearance of Wrinkles & Increases Elasticity
- Manages Cholesterol & Oxidative Stress
- Supports Healthy Immune System
- Improves Sleep & Brain Function

**HOW TO GET ALOECURE**

Due to the enormous interest consumers have shown in AloeCure, the company has decided to extend their nationwide savings event for a little while longer. Here’s how it works...

Call the AloeCure number and speak to a live person in the US. Callers will be greeted by a knowledgeable and friendly person approved to offer up to 3 FREE bottles of AloeCure with your order. AloeCure’s Toll-Free number is 1-800-748-5068. Only a limited discounted supply of AloeCure is currently available.

Consumers who miss out on the current product inventory will have to wait until more becomes available and that could take weeks. They will also not be guaranteed any additional savings. The company advises not to wait. Call 1-800-748-5068 today.

**ADVERTISEMENT**
Fontaine Maury, the “Pathfinder of the Seas,” whose pioneering work in improving information for navigation cut passage times significantly. Farther along, another alcove describes the early 20th century development of camouflage called “Razzle Dazzle,” in which wild patterns were designed to confuse the eye and consequently the aim of torpedoes targeting U.S. ships. This exhibit’s photographs of ships painted with these patterns show how incredibly confusing they are and illustrate why the process contributed so significantly to turning the tide of U-boat warfare.

**Tragedy Strikes the Yard**

One morning in September of 2013, the whole country was suddenly focused on reports of an active shooter inside the Navy Yard. A Navy veteran working in the city as a civilian contractor entered the base on a valid ID, pulled a sawed-off shotgun out of a sack, and began shooting, killing twelve people and injuring eight more, all civilians themselves. The shooter is now known to have had a history of instability and violence, but the fact that such an act could have happened on a Navy base in the nation’s capital stunned everyone. Security has been tighter since that terrible day.

Visitors to the Navy Yard today enter through a far humbler portal than the Latrobe Gate, with a precise security protocol. The visitors’ center, which conducts brief security checks and issues passes, is just inside the O Street gate, which is south of M Street SE on 11th Street SE, in the middle of the eastern boundary of the yard. Visitors with active or retired military IDs, DOD Common Access Cards, or other federal credentials may enter the base to visit the museum upon arrival and may escort up to 10 other people without such IDs. Those without a federal ID or an escort will need to complete a Base Access Pass Registration form at least seven days prior to their visit, and will be background checked, fingerprinted, and photographed prior to entry. Once admitted to the base, these individuals will be restricted to visiting the museum only. Parking is extremely limited, and local advice is to take public transportation or use a ride-hailing service or taxi service to get there, if for no other reason than to save yourself time negotiating the area in your car.

However you arrive, give yourself plenty of time to walk the interior streets and the parks if you are able, stopping to see the old and new buildings and the souvenirs of Navy history placed around the base. Walk the length of the museum and investigate the rich collection of stories, accomplishments, engineering feats and artistry. Odds are that even the most seasoned veteran will discover new moments in the nearly two hundred and fifty year history of the U.S. Navy’s relentless and creative dedication to the mastery of the seas, the protection of our national heritage, and the security of the free world.

Did you know that 18% or almost twice as many men with military service experience urinary incontinence? If you’re a veteran looking for urinary incontinence solutions for daily leaks or as a result of an injury while serving our country, Men’s Liberty can help you get out of absorbent products, condom catheters or pads and start living your life without letting incontinence get in your way.

**MEN’S LIBERTY IS COVERED BY MEDICARE!**

“I can keep doing what I want to do, without having to worry about running to the bathroom or changing my clothes. It’s a Godsend.”  — John in Michigan

Regain your freedom, mobility, and confidence.
Men’s Liberty is a life-changing solution. One unit keeps you dry up to 24 hours. This patented and proprietary external collection device for men ends dependency on adult absorbent briefs, pads and condom catheters — making embarrassing accidents a thing of the past!

Comfortable - non-invasive and time saving.
Men’s Liberty is external, fits most anatomy and non-invasive. It keeps you dry and comfortable day and night.

Dependable - stay clean, dry, and free from infection.
Until Men’s Liberty, men with urinary incontinence faced only uncomfortable choices. With more than 5 million used, there has never been a confirmed UTI or serious skin injury caused by Men’s Liberty.

Affordable - available to most for little to no out-of-pocket cost.
Adult diapers can cost up to $300 a month when used regularly. Men’s Liberty is covered by Medicare, VA/Tricare and over 3,000 insurance plans. We take care of contacting your doctor and the paperwork for your insurance. If you’re ready to save thousands of dollars a year, get your insurance card and give us a call today.

Programs Are for Branches and MAL Members

Have you ever looked at the Moving Forward page immediately to the right of this article? Did you notice it is also an FRA piece, and not a third-party advertisement?

We have had feedback that many Shipmates did not realize exactly that and missed an opportunity to earn recognition for their recruiting and retention efforts while supporting the FRA’s mission.

A Shipmate engaging and recruiting a fellow Shipmate to the FRA has a greater impact than any ad. An individual testimonial about why the FRA is important to you will resonate far more strongly because it is personal. This is why word of mouth recruiting and retention is so important, and it’s the simplest thing every Shipmate can do to strengthen both their branch and the national association.

We want active recruiters to be recognized for their efforts and have just redesigned the annual collectible pin. A picture of the new design is shown on the next page; as you can see, it features the familiar FRA triangular emblem, but modified with “Recruiting & Retaining 2019-2020” around the edge. Thus, it is a new annual design for this specific membership and recruiting year.

To earn this award, Shipmates need to recruit three new or former members into the FRA. We believe this is a goal that you could achieve simply through your normal connections in your community. For those of you who participate in reunions or attend branch meetings, those are excellent venues to introduce prospective members to the FRA.

The pins are stylish and just the right size for your lapel or your service cap, but there are higher tiers of achievement available as well. If you recruit five new or former members, you will receive the “Recruit 5” pin also shown at right, and a complimentary one year extension to your membership. If you recruit 32 new or former members during one membership year, your own FRA membership will be converted to lifetime status. If you are already a life member, you will be awarded $100. A full list of FRA membership Awards can be found at www.fra.org/MembershipAwards.

For the 2018-2019 recruiting year, 380 members participate in the recruiting program and two “Recruit 32” awards were earned by Shipmates, so we know it is possible with determination and the right tools. We encourage you get started early in the membership year which began on April first, to maximize your chances, and we hope these programs and tools FRA can provide will help you to work on your introductory remarks and find new places to meet potential Shipmates.

One final note: you do not have to be affiliated with a Branch to participate in any of these programs. Members-At-Large, who encompass over one-third of our membership, are eligible for all the same reward tiers described above, whether their new recruits ultimately affiliate with a Branch or not. The goal is to increase membership overall for the FRA, because that strengthens our voice and standing in Washington, DC, and among our fellow veteran service organizations.

We hope you will embrace the program and we look forward to sending you your pins! FRA

Yours in Loyalty,
Protection, and Service,
Christina Hitchcock

Christina is the FRA’s Director of Membership. She can be reached at ChristinaH@fra.org or 703-683-1400 (Ext. 123)
Moving Forward 2019-2020

Continuing Recruiting & Retention Programs

Recruit 3 Program
Any FRA or Auxiliary member who recruits/sponsors three new or reinstated FRA members will be eligible to receive the red/white/blue collectible pin.

Recruit 32 Program
Any FRA member who recruits/sponsors 32 new or reinstated members during the recruiting year will be eligible to receive a life membership or $100 cash award if already a Life Member. For each subsequent 32 members recruited, a Shipmate will be eligible to receive an additional award of $100.

Submit completed applications to:
FRA, 125 N. West St., Alexandria, VA 22314-2754.
Remember to include payment and your full name and membership number in the “Sponsored by” section of the application.

Recruit 5 Initiative
Any FRA or Auxiliary member who recruits/sponsors five new or reinstated members will receive a “RECRUIT FIVE” collectible pin and a one-year extension of his/her existing membership, valued at $40. If the recruiter is already a Life Member, a special gift valued at $40 will be awarded in lieu of paying for one year of membership dues. The recruiter is eligible to recruit only one set of five new or reinstated members during the recruiting year and receive the special incentive awards.

Retain 5 Initiative
To strengthen retention, we will randomly draw a total of 20 names of new or rejoined FRA members with one or two years of membership who are eligible for renewal. This drawing will be held quarterly to select five names each in July, October, December and April. Winners’ memberships will be extended for one year, valued at $40.

Join FRA: Membership Application
Membership is open to all current or former enlisted members of the Navy, Marine Corps, or Coast Guard. I certify that I fulfill the eligibility requirements and want to join the FRA. Annual dues include a subscription to FRAtoday, NewsBytes and OnWatch.

The Branch president congratulates Shipmate John Overton for his 40 years as a member of the FRA. (L to R) PNP Jeffrey Gilmartin, Shipmate John Overton, Branch President John Milliken, Shipmate Jack Lohmeyer, Branch Treasurer John Tyler, PNP Jerry Sweeney and Branch Secretary Bill Ashton.

9. BRANCH 146, JOHNsville, PA.
Shipmates gather to say “Goodbye” to Shipmate Don Doring (seated). He is moving to Virginia and has already been invited by a Branch to join their Shipmates.

10. BRANCH 208, JACKSONville, N.C.
On March 4, President Raymond Applewhite and LA FRA PNP Arlene Hemmingway, presented a $500 donation to Coastal Carolina Community College student Alexander Gerace. The donation was in memory of PNP Hemmingway’s spouse PNT Bill Hemmingway. Hemmingway faithfully served his community for several decades. (L to R) Raymond Applewhite, Alexander Gerace and Arlene Hemmingway.

11. BRANCH 72, FALL RIVER, MA.
Shipmate Peter D’Arrigo receives his 50-year continuous membership award while surrounded by his fellow Shipmates (L to R) Larry Beirola, Allen Given, Peter D’Arrigo and Branch President Ed Bailey.

12. SOUTH CENTRAL REGION
(L to R) During the Regional Mid-year Meeting, PRPSC Mike Snyder, PRPSC Terry Merteen, JrPRPSC Bruce Talbot, RPSC Emmett Smith and PRPSC Jerry Pugh all gather for a photo opportunity.

13. BRANCH 226, STATEN ISLAND, N.Y.
During the New York Coast Guard Enlisted Person of the Year Award Ceremony, Petty Officer Samuel Guzman received a plaque by the FRA and CPDA for Enlisted Person of the Year for Sector N.Y. (L to R) Branch President James Brown, BM1 Samuel Guzman, N.Y. Sector Commander Capt. Tama and Command Master Chief Evans.

CoQ10’s Failure Leaves Millions Wanting

Use this pill to supercharge your brain and think better than ever.

**BREAKING NEWS:** Millions of Americans take the supplement CoQ10. It’s the “jet fuel” that supercharges your cells’ power generators, known as mitochondria.

As you age, your mitochondria begin to die. In fact, by age 67, you lose 80% of the mitochondria you had at age 25. But if you’re taking CoQ10, there’s something important you should know.

As powerful as CoQ10 is, there is a critical thing it fails to do. It can’t create new mitochondria in your body. In fact, by age 67, you lose 80% of the mitochondria you had at age 25. But if you’re taking CoQ10, there’s something important you should know.

Taking CoQ10 is not enough

“There’s a little-known NASA nutrient that multiplies the number of new power generators in your cells by up to 55%,” says Dr. Al Sears, owner of the Sears Institute for Anti-Aging Medicine in Royal Palm Beach, Florida. “Science once thought this was impossible. But now you can make your heart, brain and body young again.”

“I tell my patients the most important thing I can do is increase their ‘health span.’ This is the length of time you can live free of disease and with all your youthful abilities and faculties intact.”

Medical first: Multiply the “power generators” in your cells

Al Sears, M.D., recently released an energy-boosting supplement based on this NASA nutrient that has become so popular, he’s having trouble keeping it in stock.

Dr. Sears is the author of over 500 scientific papers on anti-aging and recently spoke at the WPBF 25 Health & Wellness Festival featuring Dr. Oz and special guest Suzanne Somers. Thousands of people listened to Dr. Sears speak on his anti-aging breakthroughs and attended his book signing at the event.

Now, Dr. Sears has come up with what his peers consider his greatest contribution to anti-aging medicine yet — a newly discovered nutrient that multiplies the number of tiny, energy-producing “engines” located inside the body’s cells, shattering the limitations of traditional CoQ10 supplements.

Why mitochondria matter

A single cell in your body can contain between 200 to 2,000 mitochondria, with the largest number found in the most metabolically active cells, like those in your brain, heart and skeletal muscles.

But because of changes in cells, stress and poor diet, most people’s power generators begin to malfunction and die off as they age. In fact, the Mitochondria Research Society reports 50 million U.S. adults are suffering from health problems because of mitochondrial dysfunction.

Common ailments often associated with aging — such as memory problems, heart issues, blood sugar concerns and vision and hearing difficulties — can all be connected to a decrease in mitochondria.

Birth of new mitochondria

Dr. Sears and his researchers combined the most powerful form of CoQ10 available — called ubiquinol — with a unique, newly discovered natural compound called PQQ that has the remarkable ability to grow new mitochondria. Together, the two powerhouses are now available in a supplement called Ultra Accel II.

Discovered by a NASA probe in space dust, PQQ (Pyroloquinoline quinone) stimulates something called “mitochondrial biogenesis” — a unique process that actually boosts the number of healthy mitochondria in your cells.

In a study published in the *Journal of Nutrition*, mice fed PQQ grew a staggering number of new mitochondria, showing an increase of more than 55% in just eight weeks.

The mice with the strongest mitochondria showed no signs of aging — even when they were the equivalent of 80 years old.

Science stands behind the power of PQQ

*Biochemical Pharmacology* reports that PQQ is up to 5,000 times more efficient in sustaining energy production than common antioxidants.

“Imagine 5,000 times more efficient energy,” says Dr. Sears. “PQQ has been a game changer for my patients.”

“With the PQQ in *Ultra Accel II*, I have energy I never thought possible,” says Colleen R., one of Dr. Sears’ patients. “I am in my 70s but feel 40 again. I think clearer, move with real energy and sleep like a baby.”

It works right away

Along with an abundance of newfound energy, users also report a sharper, more focused mind and memory, and even younger-looking skin and hair.

The demand for this supplement is so high, Dr. Sears is having trouble keeping it in stock. “My patients tell me they feel better than they have in years. This is ideal for people who are feeling or looking older than their age… or for those who are tired or growing more forgetful.”

“My favorite part of practicing anti-aging medicine is watching my patients get the joy back in their lives. *Ultra Accel II* sends a wake-up call to every cell in their bodies… and they actually feel young again.”

Where to find Ultra Accel II

Right now, the only way to get this potent combination of PQQ and super-powered CoQ10 is with Dr. Sears’ breakthrough *Ultra Accel II* formula.

To secure bottles of this hot, new supplement, buyers should contact the Sears Health Hotline at 1-877-353-0632 within the next 48 hours. “It takes time to get bottles shipped out to drug stores,” said Dr. Sears. “The Hotline allows us to ship the product directly to the customer.”

Dr. Sears feels so strongly about this product, he offers a 100%, money-back guarantee on every order. “Just send me back the bottle and any unused product within 90 days, and I’ll send you your money back,” said Dr. Sears.

The Hotline will be taking orders for the next 48 hours. After that, the phone number will be shut down to allow them to restock.

Call 1-877-353-0632 to secure your limited supply of *Ultra Accel II*. You don’t need a prescription, and those who call in the first 24 hours qualify for a significant discount. To take advantage of this great offer use Promo Code FRAT0519UA when you call in.
You helped secure our nation’s future. Let us do the same for your family.

The FRA-endorsed Accidental Death & Dismemberment (AD&D) Insurance Plan can help you prepare for the unexpected!

A car accident on the way to work... A fall off a ladder at home... An accident can happen to you at any time—leaving your family emotionally and financially devastated if you don’t have enough financial protection in place.

With the FRA-endorsed Group AD&D Plan, you can easily secure additional financial protection to help safeguard your family’s future if an accident happens to you. Advantages include:

- Choice of benefit amounts up to $500,000.
- Guaranteed acceptance for you and your family.
- Includes EXTRA benefits for seatbelt usage, military air travel, rehab and more!
- Competitive group-negotiated rates.

FACT #1
Accidents do happen! They are the 3rd leading cause of death in the United States.¹

FACT #2
Accidental Death & Dismemberment insurance provides an easy way to add to your family’s financial security!

A Secret Any Man Can Use...

This month I got a letter from a reader in Texas about a “little secret” that has renewed her sex life with her husband!

Tina writes: Dear Karen,

For years my husband and I had a wonderful love life, but when he reached his 50s, he lost some of his old spark, especially in the bedroom. He tried every product available, but nothing worked. For the past few years, it’s felt like we were roommates, not husband and wife.

Well, last month he came home from a business trip in Europe and shocked me with more energy and passion than he’s had in years. He took me in the bedroom like we were newlyweds and gave me a night I’ll never forget. It was just incredible, and our love life has been like that ever since. So here we are, closer than ever and enjoying the best sex of our lives… in our 50’s!

On his trip, my husband stayed in a hotel room next to an Italian nutritionist and his wife and heard them passionately making love every night. He figured they must be in their twenties, but one morning he encountered them in the hallway and it turns out, they were in their 70s!

Instead of being embarrassed that they’d been found out, they were positively glowing and happy to share their “secret.” The man pulled out a small pack from his satchel, gave it to my husband and said “These tablets come from a small town up north and are made from naturally pure extracts, packed with densely rich sexual nutrients. They will give you back your vigor in the bedroom and you will perform even better than you did as a young man. Then he laughed and said, “You will become an Italian Stallion like me!”

Karen, my husband has been taking one tablet each morning with breakfast, but the pack is almost empty and we both desperately want more. Do you know about these European tablets and how to get some in the States?

Sincerely,

Tina D., Fort Worth, TX

“My husband shocked me with more passion than he’s had in years. I’m so glad I discovered this new product”

An old-school, family business, they still harvest product by hand and don’t do any advertising. Long-time customers and word of mouth ensures their limited stock is sold out every year.

They do have a distributor here in the U.S. and Provarin is surprisingly inexpensive. A spokesman told me they were proud to produce the highest quality product for men and couples. He went on to say that if any of my readers call and mention this article, they’ll be offered an additional 50% discount, free priority shipping, and a free bonus pack of 30 tablets!

Wow, so there you go, Tina - and the rest of you readers! The offer is only good while supplies last so give them a call today. The number is 1-800-715-2276.

Aren’t you glad you asked?

Karen

Adult Diapers May No Longer Be Needed Thanks To Amazing New Pill

Clinical studies show new pill may be effective enough to replace adult diapers for bladder control; initial users show dramatic reduction in trips to the bathroom, embarrassing leaking, and nighttime urgency.

Robert Ward, Associated Health Press

AHP—Adult diaper sales are expected to plummet as results from a clinical trial on a new, patented bladder control pill have finally been released. Sold under the brand name UriVarx™, the new pill contains key ingredients that keep the bladder from releasing voluntarily, which reduces accidents and frequent bathroom trips.

Perhaps more impressive, it also targets the tiny muscles around the bladder, which helps the bladder to create a tighter seal.

This would explain why the average UriVarx™ user in clinical trials experiences a 66% reduction in urinary incontinence symptoms, such as day and night leaking and sudden urges to urinate.

NEW DISCOVERY IN BLADDER CONTROL

Until now, doctors believed it was impossible to strengthen the muscles that control the bladder. They are amazed to see that it can now be done with the non-prescription UriVarx™ pill.

“As you get older, and the involuntary muscles around your bladder weaken, you lose urethral control. With your bladder wall unable to properly seal, you constantly leak and feel pressure to urinate” explains Dr. Bassam Damaj of Innovus Pharmaceuticals.

“UriVarx™ targets the bladder muscles and helps restores vital kidney health, reducing urgency and frequency. It also helps you “hold it” for hours so you never have to worry about embarrassing accidents ever again!”

FREEDOM FROM SUDDEN URGES AND LEAKS

Since hitting the market, sales for the patented UriVarx™ pill have soared and there are some very good reasons why.

To begin with, the double blind large clinical studies published in the clinicaltrials.gov have been impressive. Participants taking UriVarx™ saw a stunning reduction in urinary frequency, which resulted in fewer bathroom trips both day and night.

They also experienced a dramatic decrease in incontinence episodes, such as leaking and bed wetting. The active ingredients in UriVarx™ comes from a patented formula. It is both safe and healthy. There are also no known serious side effects in its history of use. Scientists believe that the ingredients target the muscles of the bladder to grow stronger. These muscles are responsible for keeping the bladder tightly sealed. They also help the bladder to completely empty, allowing bacteria to be flushed from the urinary tract.

Research has shown that as you get older, certain hormonal changes in the body cause these muscles to shrink and become lose. This is what causes the bladder to be over active and the resulting urine accidents and why UriVarx™ seems to be so effective in the published clinical trials.

EXCITING RESULTS FROM UriVarx™ USERS

Many UriVarx™ users say their bladders have never been stronger. For the first time in years, they are confident and in complete control. Adult pads and diapers are no longer a big worry.

“After my third child, I couldn’t control my bladder. I was running to the bathroom all the time! And once I hit my 60s it became so unpredictable I needed to wear adult pads every day” explained Marie L. of Danbury, CT.

“I was embarrassed so before going to my doctor I decided to try UriVarx and I’m so glad I did! The urgency is gone and I no longer feel like my bladder is about to explode. I can also “hold it” when I need to so I’m no longer living in constant fear of finding a bathroom.”

IMPRESSIVE CLINICAL RESULTS

The exciting clinical results published on the government clinical website clinicaltrials.gov show that UriVarx™ can strengthen your bladder fast, significantly reducing the urine urgency and leaks.

In a new double-blind, placebo-controlled clinical study, 142 men and women with bladder control issues were separated into two groups. The first group was given a placebo while the other received UriVarx™.

The results were incredible. The participants who received UriVarx™ saw major improvements in leaking, pressure, and the urgency to go − all without the usual side effects seen in prescription drugs! They also reported fewer trips to the bathroom both day and night.

Overall, the UriVarx™ group experienced:
• 56% Reduction in Urge Incontinence
• 66% Reduction in Stress Incontinence
• 61% Reduction in Urgency
• 33% Reduction in Frequency
• 46% Reduction in Nighttime Bathroom Trips

Additionally, at the end of clinical trial and after seeing the results, 84% of the participants taking UriVarx™ said it significantly improved their quality of life.

“The clinical findings are incredible, but people still worry if it will really work” explains Dr. Bassam Damaj. “It’s normal to be skeptical, but we’ve seen thousands of UriVarx™ users get results exactly like the participants in the study. It’s an amazing product.”

HOW IT WORKS

UriVarx™ is a pill that’s taken just once daily. It does not require a prescription. The active ingredients are patented natural extracts. Research shows that as we get older, the muscles which surround the bladder weaken. This is caused by hormonal changes in the body that causes the muscles to atrophy and weaken.

NEW PILL MAY REPLACE DIAPERS FOR BLADDER CONTROL: This new patented clinically proven pill solution is now available nationwide

When they become too small and weak, they cannot seal your bladder shut, which causes leaking, accidents, among other incontinence symptoms. It also prevents your bladder from fully emptying, which can result in persistent bacterial infections and UTIs.

UriVarx’s™ active ingredient targets the muscles around the bladder, making them stronger. Supporting ingredients in UriVarx™ support kidney function and overall urinary health.

BLADDER PROBLEMS GONE

With daily use, UriVarx™ can restore strong bladder control and help users overcome leakage without the negative side effects or interactions associated with drugs. Leakage sufferers can now put an end to the uncontrollable urges, the embarrassing accidents, and enjoy an entirely new level of comfort and confidence.

HOW TO GET URIVARX

This is the official release of UriVarx™. As such, the company is offering a special discounted supply to anyone suffering from bladder issues who calls within the next 48 hours.

A special hotline number and discounted pricing has been created for all everyone. Discounts will be available starting today at 6:00AM and will automatically be applied to all callers.

Your Toll-Free Hotline number is 1-800-734-1007 and will only be open for the next 48 hours. Only a limited discounted supply of UriVarx™ is currently available in your region.

THese statements have not been evaluated by the FDA. This Product is not intended to diagnose, treat, cure, or prevent any disease. Results may vary. Consult your Physician before taking this supplement. UriVarx is not a drug. Offer not available to residents of Iowa.
In the words of Winnie the Pooh, April 27th “was a blustery day.” Although it was bright and sunny, the wind was blowing.

To start off the day’s activities, a large group of Auxiliary members met at 0900, in the lobby of the Sheraton hotel located at Pentagon City in Arlington, Virginia. We were about to pay our respects and honor to PNC Ofelia T. Bitanga from Unit 274. She was being laid to rest with her beloved spouse Michael at Arlington National Cemetery. Led by Arlington Lady PNP Doreen Huylebroeck, the contingent arrived and met with the family. There were plenty of hugs and condolences.

Upon the conclusion of the burial ceremony, most of the contingent returned to the hotel for the National President’s Tea, which was hosted by Pilgrimage Chair Grace Villanueva and the members of Unit 4. The tables were decorated with three-tier sandwich trays topped with tea cups, surrounded by fruit bouquets. There were also rum cake, fruities scones, brownies, petite cakes and chocolate accompanied by an assortment of tea. The entertainment was provided by Lindsy Thomas and Hannah Castallo-Villanueva.

The next event was loading the vans for the trip back to Arlington and the ceremony at the USS MAINE Mast Memorial. RPEC LA FRA Cristina Dixon and RPEC FRA Randy Phillipp led the preambles. We were once again treated by Lindsy Thomas singing a beautiful rendition of “The Star Spangle Banner” followed by “America the Beautiful.”

FRA National President Robert Washington expressed thanks from the FRA for all the support given by the LA FRA. The eulogy was presented and for the first time in the history of the LA FRA the organization’s national president was escorted by a female Marine, Lance Cpl. Maiah Jurado, and a male sailor Seaman Taylor Baska.

The prayer was led by Loretta Jorden from Unit 24 and the Two-Bell Ceremony was conducted by PRPEC Chris Slawinski and RPEC Brian Condon, both from Branch 181. Taps was performed by a navy bugler. RPNE/NEng Joyce Harris added her special touch to the ceremony. My escorts and I then led the pilgrimage down the walkway from the Mast of the Maine to the Tomb of the Unknown Soldier. We were followed by the color bearers Aida Littlejohn from Unit 182 and Dorothy Smiley from Unit 99. The national officers also attended; NVP Bea Parco, NFS Pat Suckow, NT Linda Telly, parliamentarian and NTPNP Doreen Huylebroeck, RP NE/NEng and PNP Cindy Rodham-Tuck, RPEC Cristina Dixon, RPSE and PNP Carolyn Whitaker, RPNC Barbara White, RPSC and PNP Gini Larson, RPSW Peggy Loa, RPWC Brenda Horton, RPNW Rose Hall, PNP Sandra Robbins, PNP Helen Courneya, PNP Diane Hoover, PNC Gail Nathan and PNC Vera Thomas.

Many members of the LA FRA and the FRA attended, including FRA NED Tom Snee, PNP Bob Beese, PNP Virgil Courneya, PNP Donald Larson and JrPNP William Starkey. Thanks to Shipmate Chris Murray for taking the pictures. For those who were unable to attend due to illness, our prayers are with you.

As we move to the second half of the administrative year, remember to send in your 2019-2020 officer lists to the National Executive Secretary by July 15. Also be sure to file your IRS 990 and select your delegates for Regional and National Conventions. Thank you for continuing to recruit and reinstate members. FRA

In Loyalty, Protection and Service,
Christina Murray, National President

Four Ways to Invest More Confidently in a Volatile Market

When financial markets fluctuate, even the calmest investors can start to question their financial strategies. But volatile markets can present opportunities, says Tracie McMillion, head of global asset allocation strategy for Wells Fargo Investment Institute (WFII).

“Financial markets are frequently volatile—that’s their nature,” she says. “Over longer periods of time, that volatility can add up to attractive portfolio growth.”

McMillion shares an analogy that compares this worry to seasickness: “If you stare at the waves directly ahead of you (the current financial market), the water may look bumpy and turbulent, and you might feel ill at ease. However, if you look outward at the horizon (your long-term investment goals), the ocean as a whole appears to be on a fairly even keel.”

In addition to focusing on your financial horizon, here are some strategies you can use to help weather economically turbulent times.

1. Match your investments to your time horizon. The simplest way to feel more comfortable about your investments is to align them with your financial calendar, no matter what happens in the financial world this month or year. For example, do you need some of your money fairly soon, or want it close at hand in case of an emergency? If so, McMillion says you should consider investments such as cash holdings and short-term bonds that shouldn’t lose much, if any, value over the short term.

On the other hand, if you won’t need some of your investment money until you retire multiple years in the future, equities or longer-term bonds are worth a closer look. Those investments carry more risks but also offer potentially better returns.

2. Know what to expect from your assets. Some investors lose confidence because they don’t fully understand how their investments work. In that case, McMillion says, some knowledge of typical asset behavior is a good thing.

Consider reading up on different types of investments and asking questions of your financial advisor. Once you know how your investments are more likely to perform in certain financial markets, you can help ensure that your investment strategy is in line with your tolerance for risk.

3. Tune out the noise. By “noise” McMillion means the constant barrage of financial reports from the 24/7 news media.

“It’s common for the financial markets to temporarily get a little bit messy as they sort through the current news cycle,” she says.

However, investors usually don’t need to react to the everyday financial news, no matter how topsy-turvy things may seem.

“Remember: The U.S. news tends to report on a very small slice of available investments, particularly U.S. large company stocks,” she says. “Your portfolio, if it’s diversified as it should be, probably isn’t going up and down to the same degree as these stocks. Your portfolio changes are probably much more moderate.”

4. Regularly revisit your plan. There’s no such thing as a completely set-it-and-forget-it investment strategy, McMillion says. It’s always smart to check in regularly with your investment advisor.

“You’re life circumstances may change, or your financial goals could shift,” she says. “You’ll feel much more confident that your investments are doing their job if you review them regularly with your advisor.”
