Dear Congressman Farenthold:

The Fleet Reserve Association (FRA) opposes the "F.A.C.T. Act" (H.R. 526). The requirements of this bill are excessively burdensome and unnecessary. Those seeking compensation for asbestos related illnesses should not have to go through the rigors of needless documentation which will only succeed in causing delays.

The FRA point of contact is Brian Condon, Assistant Director of Veterans Programs, at brianc@fra.org.

Sincerely,

THOMAS J. SNEE
National Executive Director
