Dear Representative Thompson:

The Fleet Reserve Association (FRA) supports the "Medical Evaluation Parity for Servicemembers Act," (H.R. 4305).

This bill would help the military identify behavioral health issues and improve suicide prevention by instituting a mental health assessment for all incoming military recruits.

The Association appreciates your leadership on this issue and stands ready to provide assistance in advancing this legislation.

The FRA point of contact is Stephen Tassin, Assistant Director of Legislative Programs, at the above numbers or (stephent@fra.org).

Sincerely,

THOMAS J. SNEE
National Executive Director
