The Honorable Richard Blumenthal
United States Senate
724 Hart Senate Office Building
Washington, DC 20510

Fax: 202-224-9673

Dear Senator Blumenthal:

The Fleet Reserve Association (FRA) supports the “Toxic Exposure Research and Military Family Support Act,” (S. 2738).

This bill instructs the Department of Veterans Affairs to establish a national center for research on the diagnosis and treatment of health conditions of the descendants of veterans exposed to toxins during service in the Armed Forces.

The Association appreciates your leadership on this issue and stands ready to provide assistance in advancing this legislation.

The FRA point of contact is Stephen Tassin, Assistant Director of Legislative Programs, at the above numbers or (stephent@fra.org).

Sincerely, .

THOMAS J. SNEE
National Executive Director
